DETAILED ACTION

STATUS OF THE CLAIMS: Claims 1-25 are pending in this application.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-25 (including claims dependent thereon) are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(a) The term "terminal group " (for A and B) in claim 1 is a relative term which renders the claim indefinite. The term "terminal group" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. Examiner suggests including the groups intended.

(b) The term "residue" (for Q) in claim 1 and 17-20 renders the claim indefinite because "residue" implies more than what is being positively recited. The term can include any or all organic compounds derived from the core structure, and thus, it is unclear what is included or excluded.

(c) Claim 24 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01.

Allowable Subject Matter

Claims 1-25 will be allowed if amended to overcome the rejections under 35 USC 112. The compounds and process were not found to be obvious nor anticipated by the prior art of record.
